Re: RFQ 21021003 Vendor questions and OGC **responses**.

- 1) References (Please do not use current or former Commission staff as references) -- Can you please let us know how many references are being requested for a vendor? And is there anything further needed besides Account Name, Contact Name and Contact Info details?

**We would prefer no more than three references and are not seeking anything out of the ordinary.**

- 2) Rates – for rates , is the expectation that the vendor will provide a rate card for the below roles and broken out by experience i.e. Junior 0-2 Year Intermediate 3-7 year and Senior 7 years plus ?. Example shown below. Or is there some other format BC OGC would like to see.

| Role                   | Junior | Intermediate | Senior |
|------------------------|--------|--------------|--------|
| Project Manager        | Rate 1 | Rate 2       | Rate 3 |
| Scrum Master           |        |              |        |
| Data Analyst           |        |              |        |
| Business Analyst       |        |              |        |
| UX Designer            |        |              |        |
| System Architect       |        |              |        |
| Change Manager         |        |              |        |
| GIS Analyst            |        |              |        |
| Database Administrator |        |              |        |
| Developer              |        |              |        |
| QA Analyst             |        |              |        |
| Blended team rate      |        |              |        |

**We have incorporated the table as submitted and added a section for a blended rate should one exist. It has been updated as the v2 excel sheet on BC Bid.**
