

OIL AND GAS COMMISSION
NOTICE OF INTENT TO PURCHASE

The Oil and Gas Commission (Commission) is hereby giving notice of the intent to purchase TIBCO Data Virtualization from TIBCO Software Inc. to improve its data management architecture.

The following are expected to be included with this purchase:

- The vendor will provide access to TIBCO Data Virtualization software and include 2 Processor licenses for a period of one-year (January 1, 2022, to December 31, 2022).
- The vendor will provide technical and end user support for TIBCO Data Virtualization, that includes its initial installation and configuration.
- The vendor will provide access to upgrades to TIBCO Data Virtualization on a regular basis to enhance and improve features.

A purchase agreement with TIBCO Software Inc. for TIBCO Data Virtualization at a price of up to \$80,000.

The Commission has chosen not to tender this purchase agreement for the following reasons:

1. A comprehensive review of current data management tools failed to identify feasible alternatives that could enable an accessible, integrated logical data fabric within the Commission's budget.
2. The suitability of the vendor's product for data virtualization on premise with the Commission's current system architecture and at the comparatively small scale of the Commission's data assets.

Vendors wishing to object to this decision should contact the procurement specialist via email Procurement@bcogc.ca **on or before 2:00 p.m. local time on November 29, 2021 presenting specific reasons for their objections.** Vendor ability to offer a tool of similar quality at a lower cost in the same time frame will be the key criteria with regard to the consideration of vendor objections.
